A Independent continuation measurement
Restore full state
Verify SHA256
Fix feasible actions
Force one action
THINK / RETRIEVE
VERIFY / STOP
Labeling μ
Independent A/B sets
Deployment π
Independent A/B sets
Score terminal answers
Charge all future resources
Compare values and ranks
Bootstrap by question
B Separate coupling audit
Shared sampler seeds across action branches
Same checkpoints and K per arm
Compare THINK action-contrast variance
with independent seeds at equal branch counts
